

## SZABADOS VIDEO DIRECTORY

Dear Visitor,

This collection of videos is a kind recommendation for all those who wish to get information about the music activities of György Szabados with the help of film documents with music, however without any intention of research.

The website *The World of György Szabados (Szabados György világa)* is also a basic collection of data for research purposes. Every document is to be found here, which the collective of helpers engaged for safeguarding this valuable material, has considered as worthy to be preserved. This objective, as well as the multiple facet of the György Szabados' spiritual heritage makes the website's structure rather complex.

The need emerged that we should offer visitors a method of easier accessibility in their direct orientation. This should be the SZABADOS VIDEO DIRECTORY similar to the method applied in the SZABADOS MUSIC DIRECTORY.

### How to use:

The Szabados Video Directory comprises in chronologic order the recommended documents, which inform about the music work and the partly connecting spiritual world of the composer.

All - is the collection of all recommended videos. These include musical events, talks, interviews and moments of paying homage.

Icons in the list inform about the type of the event, be it music, interviews, talks, Homage á Szabados:

Music,

Interviews, Conversations,

Homage to Szabados.

The three types can be reached also from separate lists:

Musical Events: Musical performances or recordings containing music events

Interviews & Conversations: recordings with talks

Homage to Szabados: recordings of events where Szabados is honored

Videos, which are not in this recommendation but are included in this website, are accessible through the menu item "VIDEOS" on the website.

We hope you enjoy it.
